TO WHOM IT MAY CONCERN

This is to certify that Tejas Ganpat Bhurse, student of the Institute of Chemical Technology, IOC Bhubaneswar Campus, Roll No. B23IMT747, has successfully completed his internship and volunteer work under our supervision during the period from MAY 22 2025 to MAY 29 2025 at Unmukt Foundation. During this period, his services were found to be satisfactory in carrying out the assigned tasks. His responsibilities included:

Water Hardness Reduction

Developed cost-effective tablets to soften hard water for household use, including bathing and laundry, with validated dosage and cost analysis.

Automatic Water Stopping System (Under Improvement)

Created a low-cost system that automatically shuts off water pumps to prevent tank overflow, conserving water and minimizing manual monitoring.

Air Filtration System for Polluted Environments

Designed an economical filtration unit to reduce air pollutants in the open environment.

Tablet-Based Pollutant Removal System for Water Coolers

Created dissolvable tablets that release pollutant-absorbing agents into water-cooled air filtration systems, focusing on safety and cost-effectiveness..

His exposure to these areas has been satisfactory. During his tenure, he ably handled major responsibilities and performed tasks diligently. We found him to be motivated, responsible, and a committed team member. We wish him all the best in his future endeavors

Niyatee Rout.
